Station Sponsorships

Station sponsorships are for Record Labels, Producers, DJs or Companies who are serious about brand building on one of the Top House Music Radio Stations on the Internet.

Gold Level - \$175 per month. You get priority placement in all media outlets. You get two plays per hour of your radio spot ad around the clock for the month, and your leaderboard web ad will enjoy exclusive placement on the top of our web site. Your brand will also be mentioned on our social media.

Silver Level - \$125 per month. Your message is blasted across both our radio station and our website. You get one play per hour of your radio spot ad per hour for the month, and will share one of the banner spots (could be top banner, big box or skyscraper - whatever is available) with other advertisers in rotation.

Bronze Level - \$75 per month. You will get one play of your radio ad per hour for the month, plus your choice of a 250x250 square ad in the sidebar of the front page, or a 160x600 skyscraper ad in the sidebar of the article pages for that month.

Show Sponsorships - \$75 per month. Build brand recognition by being a continuing sponsor of one of our regularly scheduled radio programs. Your sponsorship announcement is read before and after each show episode, identifying both your product or service and your status as sponsor, and your radio ad is played at the beginning of each programmed hour for each program you sponsor.

Radio Advertising Standard Rates.

This may surprise you: radio ads are actually very cheap. A single conventional flier costs more than a radio ad. We sell them by the play.

30 second spots are \$0.083 per play (**\$60 min. order**) You specify once per two hours, one per hour, or twice per hour.

With a minimum order, your ad will play once an hour for 30 days, or twice an hour for 15 days.

You can order as many plays as you like.

You can either provide us with your prerecorded ad. Spots must be recorded as MP3 files, 16-bit stereo, with a 320kbps sample rate. If you use background music, you must have secured the rights to use it.

...or we can even produce your radio ad for you if you need us to. (additional cost) Send us your script and details of any style of background music.

A thirty second radio spot equals about 80 spoken words. You can use less than that, but not more – and, if you make your own radio spot, you are responsible for attending to the music rights for any music you might use.

Please contact House Music 1 Marketing at info@housemusic1.com and we'll help you get started.
